

MDP 212: Mechanics of Machines

Activity 1

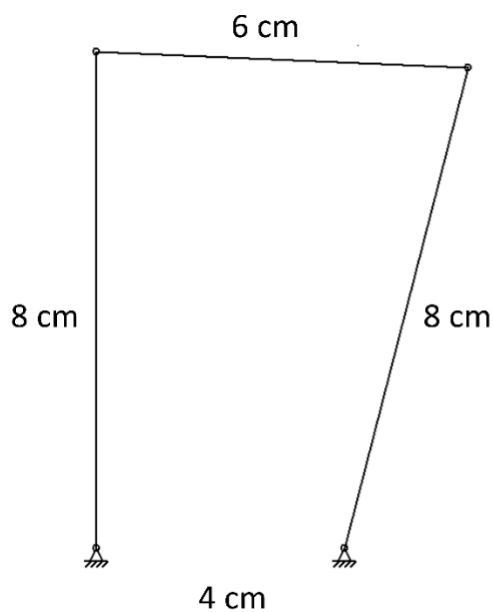

For the shown 4 bar mechanism, $AB = 4$ cm, $BC = 8$ cm, $CD = 6$ cm, $AD = 8$ cm. It is required to:

- Draw the mechanism at the shown position
- Determine the angle of Link CD at the shown position
- Determine the angular stroke of the link CD

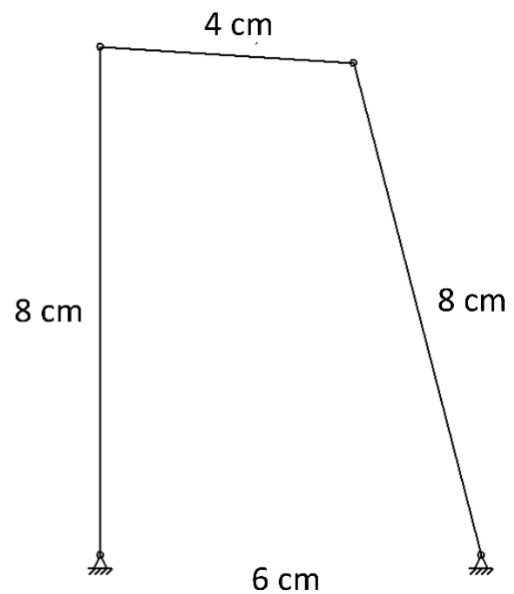

Activity 2

Use Grashof condition to determine the type of the shown four bar mechanisms. Check your answer with SAM.

(a)

(b)

Activity 3

Draw the path of point P and point Q for the shown double slider mechanism $AQ = 6$ cm, $QB = 4$ cm, $BP = 4$ cm
